

The most FAQ is, “Do you allow outside caterers to use your kitchen facilities to serve our banquet?” The answer is YES! And if you don’t have one, we can make a couple of suggestions depending on your budget and needs .

Q. Do you have a sound system we can use?

A. Our main in-house sound system must be operated by one of our qualified technicians. He will contact you to determine what your needs are — speakers, special music ie: a band or instrumentalist, etc. We have a cd player, and can run audio from an mp3 player or computer. (iPhone, iPod, computer, etc) as well as we can run video if needed. Our tech will give you a quote based on an hourly rate and will invoice you directly for his services.

In addition, we have a portable sound system suited for our smaller spaces which can be rented and operated by either yourself or if you prefer, you can hire one of our technicians to operate it for you.

Q. Can we have a dance at our event?

A. Break out the dancing shoes—the answer is YES!

Q. Can we serve alcohol at our event?

A. The good news is that you won’t be needing to arrange any designated drivers or alternate forms of transportation! Serving alcohol &/or wine is not permitted in our facility.

Q. Can we rent the kitchen and have a potluck event?

A. Bring on the food—it’s a yes! If you plan to do any food prep in our kitchen , that’s okay too as long as you have someone with a current Food Safe Certificate in the kitchen during its use. We do have staff that you can hire if needed as a qualified kitchen supervisor.

Q. Do we have to be out by a certain time?

A. As long as workable arrangements suitable for everyone have been made in advance, the doors close whenever your event is over.

Feel free to call us at 604-853-4166 if you have further questions.
